INTERESTS

UI design, web design, creative direction, branding and identity, logo design, typography, photography, videography, music, biking, hiking and paddling.

OVERVIEW

Design is my passion. I have been a designer for over 20 years, and I have gained tremendous knowledge in visualizing, planning, and implementing graphic communications for the web, video, and print. I am experienced in leading and managing project teams to successfully communicate and educate through a variety of media.

Adaptability is one of my major strengths. I am able to jump easily from being a designer, to a coder, to software and hardware technician, to decision maker. This adaptability can also be seen in my design work where I am able to handle any task I'm given, and to do it with maturity, professionalism, and a sense of humor.

CAREER HISTORY

Principal at Banyan Studio—June 2003 to Present
» Create Web, Video and Print design for companies large and small. Clients include Kymeta, Echodyne, Intellectual Ventures and others.

Senior Web/Graphic Designer at Microvision, Inc.—March 2001 to October 2010
Microvision is a designer and manufacturer of original scanning and display technology for the consumer, government, and automotive industries.
» Responsible for design and daily maintenance of corporate website. Managed creation and ongoing development of the company Intranet and corporate blog. Duties included managing content and all content providers (marketing, sales, investor relations, and executives).
» Created video production projects from start to finish, including conceptualization, art direction, camera work, and editing.
» Promoted corporate brand identity to establish consistency of the brand in all internal and external company communications—from trade shows to packaging.
» Regularly managed vendors responsible for back-end web, print, packaging, signage, and photography.

Web/Graphic Designer at Mackie Designs Inc.—July 1998 to March 2001
Mackie Designs is a high-tech manufacturer of original products for the professional audio industry.
» Designed and managed projects including advertising, packaging, multi-language collateral, exhibit graphics and motion graphics for video and the Web.
» Responsible for overseeing photoshoots, press checks, vendor communications, and training of interns and production artists.
